Specification Data Sheet

Product Name	:	N-(1-Naphthyl)ethylenediamine
CAS Number	:	1465-25-4
Chemical Formula	:	
Mol wt	:	259.17
Appearance	:	White powder
Argentometr. Titration	:	≥ 98% (calc on dry basis)
Solubility	:	Colorless, Clear Turbidity, 1G in 50ML water
Water	:	≤ 5.0%
Infrared spectrum	:	Conform to structure
ACS specification	:	Corresponds to requirements
Remarks on ACS	:	Suitability for detection of sulfonamide
Recommended retest period	:	36 months
